

Authentication SDK Release Notes V2.145.0.0 02/24/22

Compatible with VS Desktop V2.143.0 or higher

New Supported Documents:

Country	Document Type	Validation Type*
Nevada 2021	Driving License and Identification Card	Comprehensive
New Jersey 2020	Driving License and Identification Card	Comprehensive
West Virginia 2019	Driving License and Identification Card	Comprehensive
Utah 2021	Driving License and Identification Card	Comprehensive
Nebraska 2021	Driving License and Identification Card	Comprehensive
TLC (USA) 2016	Driving License	ID Parsing Only

* **Comprehensive** - Performs all Validation Checks.

Partial - Performs General Validation Checks. UV and IR Validation checks are skipped.

ID Parsing Only - Performs Simple Validation Check from parsing a barcode.

Enhancements:

Description
Check quality of IR images and notify if they are incorrect
Improved work with E-Seek M500 scanner
Host is created for each running application separately
Run validation tests for unrecognized documents

Defects Fixed:

Description
Authentication SDK did not find face image from a US Passport Card
Cross Validation: contradictions in the total test status and details
OCR on IR Front test: incorrect cross match results
Host process is not closed after the parent process is closed
