M260

High Reliability 2D and Magstripe ID Card Reader for Age/ID Verification

STANDARD FEATURES

- High Performance Barcode Reader
- Magnetic Stripe Reader
- Small Footprint / Easy Operation
- Reads AAMVA Standard Cards
- Powered only via USB port
- Mountable in Kiosk Environments
- Easy operation to register Customer

The Model M260 incorporates a magnetic stripe reader with advanced 2D barcode reading technology for government-issued ID cards. It's a reliable and affordable business solution for age verification and transaction processing.

Data is transferred to the host device via a standard USB interface or RS-232 serial port. In addition to the standard side access cable interface connector, the Model M260 also uses a bottom-mounted interface connector which makes it easily mountable for kiosk and vehicle mounting situations.

"Our customers love the M260 for it's compact size, ease of use and reliability in any environment."
